

.....
Mehul Motani is an Assistant Professor in the Electrical and Computer Engineering Department at the National University of Singapore. He graduated with a Ph.D. from Cornell University, focusing on information theory and coding for CDMA systems. Prior to his Ph.D., he was a member of technical staff at Lockheed Martin in Syracuse, New York for over four years.

Recently he has been working on research problems which sit at the boundary of information theory, communications and networking, including the design of wireless ad-hoc and sensor network systems.

He was awarded the Intel Foundation Fellowship for work related to his Ph.D. in 2000. He is on the organizing committees for ISIT 2006 and 2007 and the technical program committees of MobiCom 2007 and Infocom 2008 and several other conferences. He participates actively in IEEE and ACM and has served as the secretary of the IEEE Information Theory Society Board of Governors.

.....
***Massimo Franceschetti ***is associate professor of Electrical and Computer Engineering at the University of California at San Diego. He received the Laurea degree, magna cum laude, in Computer Engineering from the University of Naples in 1997, and the M.S. and Ph.D. degrees in Electrical Engineering from the California Institute of Technology in 1999, and 2003. Before joining UCSD, he was a post-doctoral scholar at University of California at Berkeley for two years. Prof. Franceschetti was awarded the C. H. Wilts Prize in 2003 for best doctoral thesis in Electrical Engineering at Caltech; the S. A. Schelkunoff award in 2005 (jointly with profs. J. Bruck and L. J. Shulman) for best paper in the IEEE TRANSACTIONS ON ANTENNAS AND PROPAGATION; an NSF CAREER award in 2006, and an ONR Young Investigator award in 2007. He has held visiting positions at the Vrije Universiteit Amsterdam in the Netherlands, the Ecole Polytechnique Federale de Lausanne in Switzerland, and the University of Trento in Italy.

.....
***Amos Lapidoth ***received the B.A. degree in mathematics (*summa cum laude*), 1986), the B.Sc. degree in electrical engineering (*summa cum laude*), 1986), and the M.Sc. degree in electrical engineering (1990), all from the Technion-Israel Institute of Technology, Haifa. He Received the Ph.D. degree in electrical engineering from Stanford University, Stanford, CA, in 1995. During 1995-1999, he was an Assistant and Associate Professor in the Department of Electrical Engineering and Computer Science at the Massachusetts Institute of Technology, Cambridge, and was the KDD Career Development Associate Professor in Communications and Technology. He is now Professor of Information Theory at the Signal and Information Processing Laboratory, ETH Zurich, Switzerland. His research interests are in digital communications and information theory.

.....
Syed Ali Jafar received the B. Tech. degree in Electrical Engineering from the Indian Institute of Technology (IIT), Delhi, India in 1997, the M.S. degree in Electrical Engineering from California Institute of Technology (Caltech) , Pasadena USA in 1999, and the Ph.D. degree in Electrical Engineering from Stanford University, Stanford, CA USA in

2003. His industry experience includes positions at Lucent Bell Labs , Qualcomm Inc. and Hughes Software Systems. He is currently an Assistant Professor in the Department of Electrical Engineering and Computer Science at the University of California Irvine, Irvine, CA USA. His research interests include multiuser information theory and wireless communications.

Dr. Jafar received the NSF CAREER award in 2006 and the ONR Young Investigator Award in 2008. He received the UC Irvine Engineering Faculty of the Year award in 2006 and the UC Irvine EECS Professor of the Year Award in 2009. He is a co-recipient of the DARPA ITMANET Young Investigator Team award. Dr. Jafar serves as Associate Editor for IEEE Transactions on Communications and for IEEE Communications Letters.
