

*Status report, September 9, on
IEEE Information Theory Workshop 2007
on
Information Theory for Wireless Networks
Bergen, Norway
July 1-6, 2007*

itw2007.org

- Topics:
 - *Space-time codes and cooperative relay networks*
 - *Error-control for wireless communication: Forward error correction or ARQ?*
 - *Network coding for wireless communication*
 - *Low correlation sequences and streamciphers*
- Format and important dates:
 - 4 ½ days of technical program
 - Mixed: 6-7 invited speakers for each topic + submitted talks
 - Submission deadline: March 16, 2007. Notification: April 30
- Organization:
 - General chair: Øyvind Ytrehus
 - Program co-chairs: Vijay Kumar, Tor Helleseth
 - Program committee: Invited speakers
- Invited speakers confirmed so far: J. C. Belfiore, H. El-Gamal, C. Fragouli, T. Ho, K. Nyberg, A. Shokrollahi
