IEEE IT Society Online Committee Report
(ITA 2016 BoG edition)

Anand D. Sarwate

Update on Redesign progress

30 January 2016
Committee composition

Current committee composition:

- Anand Sarwate (chair)
- Matthieu Bloch
- Adriaan J. de Lind van Wijngaarden
- (new) Evyatar Hemo
- J. Nicholas Laneman

The committee wants to recognize the dedicated (and nearly superhuman) service of Stefan Moser.
Activities since Allerton BoG meeting

Current and pending activities for the committee:

- Matt LaFleur is taking over many regular updates and has a checklist of updates (e.g. BoG changeover, awards, etc.)
- Made significant progress on site redesign and upgrade (more on that later).
- Uploaded ISIT 2015 Plenary Videos (ongoing) and past video materials.
Status of the upgrade

- Invoiced the full $45k from IEEE.
- Total expense: $55,000 to $70,000 depending on complexity. This is a narrowing from $47,000 to $78,000 from Allerton.
- Most elements that have been pushed to production are back-end fixes: DB upgrades, load time improvements.
- Some content reorganization to help flatten the hierarchy.

Promoting content

- More active management of the ITSOC Twitter account: @ieee_itsoc
- LinkedIn/Facebook/other media links
- Automatically syndicate updates/announcements to different feeds.
- Replace FeedBurner with MailChimp (still looking at feasibility).
Thank you!
